

LOYD'S REGISTER,  
LONDON  
24 MAR 1922

# Lloyd's Register of Shipping,

Maritime Buildings, East Dock Street,

Dundee, 23rd March, 1922.

The Secretary,

London.

Dear Sir,

As requested in your letter of the 17th instant., the particulars of screw and tunnel shafts, and bilge injection of the S.S. " MANXSONA ", have now been added to my Report No. 8357 on this case.

I regret that I omitted to enclose the forging report upon the short tunnel shaft, which was made here.

With my Report there are also returned the Ipswich Report 83439, and Middlesbro' Report 10291, on the Engines and Boilers.

I should add that your letter of the 25th August 1920, does not appear to have come to this office.

I am, Dear Sir,

Yours faithfully,

*Handwritten signature*
