# Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

3 Enclosures.

11th February 1921.

Dear Sir,

With reference to Liverpool First Entry Report No. 81858 on the Steel Screw Steamer "INDORITA", I shall be glad if the Surveyors will be good enough to reply to the following points, namely:-

- (1) Whether they are correct in reporting that the forecastle deck beams, of the size given on the report, are fitted on alternate frames.
- (2) The Surveyors should state clearly how many bulkheads are watertight, in accordance with the requirements of the Rules, and forward the approved sketches shewing the arrangements at the fore end and of the strengthening of the bottom forward.
- (3) The spacing of the raised quarter deck beams, which is omitted, should also be stated.

The approved plans of midship section and profile (3 in number) are sent herewith for the information of the Surveyors.

I am, Dear Sir,

Yours faithfully,

The Secretary,  
LIVERPOOL.
