

M.V. "MAULY"

Nº 29489 in the Register Books.  
(Built 1935-840)

Shipbuilders: Messrs.

Yard No.

Engineers: Messrs. FIAT

Engine No.

URGENT

It is submitted the Genoa Surveyors be informed  
'it is noted that owing to defects having developed  
in ~~these~~ <sup>three</sup> original Cast-Steel "A" frames of the  
main engines of this vessel, it is proposed  
to replace these "A" frames with ~~frames~~ <sup>frames</sup> of all  
welded construction.

The plan, Nº 032158, of welded "A" frames  
meets approval provided the welding be  
carried out with approved electrodes to the  
Surveyors' satisfaction and on completion of  
the welding the "A" frames be efficiently  
heat-treated.

The Surveyors should be requested to  
forward to this Office a sketch showing particulars  
of the stated defects in the Cast-Steel "A" frames.

Return 1 plan of welded frame.

Retain 1 " " " "  
1 " " cast steel frame.
