Dear Sir,

The Owners informed us that they are changing the existing Bolnes motor by a second hand motor they have bought in England.

It was first Owners' intention to have the motor classed and we explained to them what we would like to know of that motor: had it been classed before and out of which ship had it been taken?

Owners seem to have encountered some difficulties on this path and have today informed us that they no longer contemplate keeping the ship in class, which please note.

Yours faithfully,

The Secretary,
LONDON.
