SECTION No. 420

Clloyd's Register of Shipping.

71, Fenchurch Street, E.C.3.

14th August 1948.

Dear Sirs,

S. I am in receipt of your letter of the 12th instant respecting your Steamer "TROLL", from which it is noted that she is at present being altered from Steamer to Motor Vessel.

With regard to the Committee's decision as conveyed to you in my letter of the 10th instant, to expunge the vessel's class from the Register Book with a Red Line, I can only point out that when the vessel was taken over by you in March 1947, the classification with this Society was continued as a result of a satisfactory General Examination, but it was made clear on the certificate issued to you that a further survey for class maintenance should be held before the end of March 1948. Your failure to carry out this implied contract for class maintenance, was regarded by the Committee as non-compliance with the Rules of classification with this Society, and accordingly they decided to expunge the class with a Red Line, which is the method of deletion set forth in the Rules under this cause.

Yours faithfully
