W.E.OGILVIE.

Dear Sir:

Answering your communication of August 21st; the port
bow plating was examined and continues satisfactory.

The Owners were anxious to put the vessel in service
without delay, and will have the repair made at a more convenient
opportunity.

The shell plate in way of engine and boiler room is that
mentioned in report 1323; it is in strake above bilge and was the
only one that required repairs.

I am, Dear Sir,

Yours faithfully.

T. F. Holmes
SURVEYOR.
