Proposed to be held.....

Remarks In June, 1953, the Committee agreed to the Special Survey being postponed until June, 1954 subject to a satisfactory General Examination in dry dock being carried out. A General Examination was partly carried out at Copenhagen, where the vessel was laid up, and it was stated that the General Examination would be completed before she proceeded to sea; a record of "Laid up - surveys overdue" was assigned meantime.

In June last the vessel was sold to Italy and the Committee agreed to postpone the Special Survey until her arrival at an Italian port provided the partly held examination was completed. This inspection was completed at Copenhagen in June and the notation "Laid up - surveys overdue" was accordingly deleted.
