

MONTROSE,

5th February, 1923.

Dear Sirs,

T.S.S. "Muritai" - No. 117.
Propeller Brackets.

With reference to our discussion regarding the propeller brackets fitted by the Coaster Construction Coy. on above vessel I understand that your Society wishes to have from me written concurrence in the arrangement which has been made. I am informed that the elongation tests were not up to your requirements but that your Society and the Board of Trade have agreed to accept the casting. In consideration of the circumstances that it was imperative to have the brackets fitted and time did not permit of having new brackets made I have formally agreed to the arrangement.

Yours faithfully,

J. F. Ryan
Superintendent
