Motorship "KOSMOS" I", No.89738 in the Register Book.

Dimensions: 185' x 25.3' x 18'.

This Motorship was built in Germany in 1920, and in December last was classed A1, with a freeboard corresponding to an extreme draught of 14' - 4" For service in the Gulf of Mexico and Caribbean Sea".

A letter has now been received from the New York Office enclosing a copy of one from the Owners, The Standard Fruit & Steamship Company, in which the latter desire to be informed if the vessel could be classed 100A1 in view of the extreme draught not exceeding 13 ft. 6 inches.

The scantlings, as approved at the New York Office, have been investigated, and it is submitted the New York Office be informed that after a full allowance has been made both for the reduced draught and the limited service, it is found that the deficiencies in the scantlings are such that the 100A1 Class could not be approved.
