31st August, 1955.

Dear Sirs,

Steamer "INCHJURA"

I have your letter of the 15th instant and would inform you that the comments contained in the Owners' letter of the 12th August have been fully considered by the Committee.

In reply the Committee desire you to explain to the Owners that the Special Survey became due in this case in July, 1954, and not July, 1955, as stated by Messrs. Williamson & Company. It is true that a year of grace was granted within which to carry out the inspection, but this does not alter the fact that the survey in question is now long overdue.

The Committee are anxious that any notations appearing in the Register Book shall clearly reflect the true position in every instance, and it is evident that the notations assigned by them on the 5th instant, i.e. "Class Expunged - Non-compliance with Regulations 8,55" is entirely the correct one, and they are unable to make any alteration.

You should add the Committee quit Messrs. Williamson & Company took the year of grace had been granted, and the suggestion that they are holding responsible for non-compliance with the Rules. They must, however, make their decision on reflection. I trust that on reflection Messrs. Williamson & Company will appreciate that this vessel enjoyed a full year of grace before being withdrawn and that therefore the Rules for four-year surveys were not complied with.

Yours faithfully

Deputy Clerk  
the Classification

The Surveyors,  
HONG KONG.
