

"LA PERLA".
....

Mr. Keith, in a telephone message from Liverpool to-day, states that he is afraid that great offence will be given to Messrs. Cammell, Laird if the certificates for this vessel are withheld pending payment of the fees . The Builders have a certain regular pay day every month, and cannot very well draw cheques except on those days.

He pointed out that in April last year he was authorized to issue the certificates in the case of the Diesel Electric Motorship "LA MAREA".
