		Afloat			

100Al Carrying
Petr. in Bulk
Class
(Contemplated) *Entry*

Completion of First Entry.

The vessel examined generally afloat as far as practicable.
The windlass tested under working conditions.
The steering gears tested under a trial in the Sound and found to work satisfactory.
Copies of interimcertificates, hull and freeboard, issued in this case are enclosed herewith.
The vessel has now proceeded to Gothenburg for drydocking and fitting of additional docking brackets in centre tanks.
The Gothenburg Surveyors have been informed accordingly.
