The Secretary,  
London.

Dear Sir,

Société Maritime Shell  
Motor Tanker "ISIDORA"

I beg to inform you I received yesterday evening a telephone call from our Mr. L.S. Sims, Havre reporting that when being on board the above vessel to deal with damage to anchor and chain cables he heard of the main engine damaged being under repair. He was astonished never been advised of it and was replied the vessel was no longer classed with L.R.

I telephoned to Mr. Berline at Messrs. Société Maritime Shell, Paris who said he had heard of an arrangement made between Mr. F. Arnaud and Head Office London, when building orders were passed, that the 4 sister ships should be built with dual Class LR and BV but would continue only with BV Class after completion. He added that however they desire that L.R. would continue to survey anchor and chain cables.

I requested them they would confirm this position direct to Head Office and I advised Mr. L.S. Sims accordingly, informing him I was reporting the matter to you for which you perhaps will kindly send to him your directions.

Yours faithfully,

CLASSIFICATION  
SHIP.

#

*[Handwritten initials]*

4/5 HAV 307a  
HAV 9/55 Equip.

Mr Logan states that it has been arranged with us that the class of these ships will be introduced at the owners' request when they come into service. He will arrange with Mr. Townsend that L.R. will be called in the matter and cables.
