

# REPORT ON ELECTRICAL EQUIPMENT.

(OTHER THAN FOR THE PROPULSION OF THE VESSEL)

Received at London Office

30 JUL 1955

Date of writing Report 9-7-1955 When handed in at Local Office 26-7-1955 Port of NANTES

No. in Survey held at SAINT NAZAIRE Date, First Survey 10-2-55 Last Survey 22-6-1955 Reg. Book.

(No. of Visits 9)

Supp 91109 on the SINGLE SCREW S.S. "SIDORA" Tons Gross 20,700 Net 10,420

Built at SAINT NAZAIRE By whom built CHANTIER DE SAINT NAZAIRE (PENHOET) Yard No. P.15 When built 1955

Owners SOCIETE MARITIME SHELL Port belonging to LE HAVRE

Installation fitted by CHANTIER BATELIERS DE SAINT NAZAIRE (PENHOET) When fitted 1955

Is vessel equipped for carrying Petroleum in bulk YES Is vessel equipped with D.F. YES E.S.D. YES Gy.C. YES Sub.Sig. YES Radar YES

Plans, have they been submitted and approved YES System of Distribution 3 PHASE 3 WIRE PHASE 2 WIRE INSULATED Voltage of Lighting 115/24

Heating 440/115 Power 440/115 D.C. or A.C., Lighting AC Power AC If A.C. state frequency 60 CPS

Prime Movers, has the governing been found as per Rule when full load is thrown on and off YES Are turbine emergency governors fitted with a trip switch YES

Generators, are they compound wound AC, and level compounded under working conditions YES

Are the generators arranged to run in parallel YES Is the compound winding connected to the negative or positive pole YES

Have machines 100 kw. and over been inspected by the Surveyors during manufacture and testing YES Have certificates of test for machines under 100 kw. been supplied and the results found as per Rule YES

Position of Generators TURBO ALTERNATORS - STAR SIDE E.R. FLAT OIL ENGINE ALTERNATOR - PORT SIDE E.R. FLAT

is the ventilation in way of generators satisfactory YES are they clear of inflammable material and protected from mechanical injury and damage from water, steam and oil YES

Switchboards, where are main switchboards placed ON FLAT - FW PART OF ER CENTRALLY

are they in accessible positions, free from inflammable gases and acid fumes and protected from mechanical injury and damage from water, steam and oil YES

what insulation is used for the panels DEAD FRONT CONSTRUCTION, if of synthetic insulating material is it an Approved Type YES

if of semi-insulating material (slate or marble) are all conducting parts insulated therefrom as per Rule YES

Is the construction as per Rule, including locking of screws and nuts YES Description of Main Switchgear

for each generator and arrangement of equaliser switches TURBO SETS - 3 POLE LINKED CIRCUIT BREAKER WITH OVERLOAD TRIPS

OIL ENGINE SET - 3 POLE LINKED CIRCUIT BREAKER WITH OVERLOAD TRIPS. ALL WITH UNDER VOLTAGE RELEASE ACTUATED BY REVERSE POWER RELAY

and the switch and fuse gear (or circuit breakers) for each outgoing circuit 3 POLE LINKED CIRCUIT BREAKER WITH OVERLOAD TRIPS

Are compartments containing switchboards composed of fire-resisting material or lined as per Rule YES Instruments on main switchboard 18

ammeters 7 voltmeters 2 synchronising devices. For compound machines in parallel are the ammeters and reverse current protection devices connected on the pole opposite to the equaliser connection YES

Earth Testing, state means provided EARTH LAMPS & RESISTANCES OR 3 SP TRANSFORMERS WITH RELAYS Preference Tripping, state if provided NO

Switches, Circuit Breakers and Fuses, are they as per Rule YES are the fuses an Approved Type YES

make of fuses CEMESS & STAPPER are all fuses labelled YES

If circuit breakers are provided for the generators, at what overload do they operate 150% OVERLOAD

and at what current do the reverse current protective devices operate 3% IN 1.5 SECONDS

Cables, are they insulated and protected as per Rule YES

if otherwise than as per Rule are they of an Approved Type YES

state maximum fall of pressure between bus bars and any point under maximum load > 6% volts

Are all paper insulated and varnished cambric insulated cables sealed at the ends YES

Are all the cable runs in accessible positions not exposed to drip or accumulation of water or oil, high temperatures or risk of mechanical damage YES

are any cables laid under machines or floorplates YES, if so, are they adequately protected YES

State type of cables (if in conduit this should also be stated) in machinery spaces LEAD COVERED & METAL BRAIDED & PYROTEX

and laundries - NO - State how the cables are supported or protected MAINS ON FW & AFT GANGWAYS - SUPPORTED BY WOOD CLEATS SECURED TO STEEL CHANNELS MACHY SPACES - CLIPPED TO ANGLE IRON SUPPORTS OR CLIPPED ON

SUPPORTS ATTACHED TO STRUCTURE & OR ON GALVANISED PERFORATED PLATING ACCOMMODATION - CLIPPED TO SUPPORTS, GAL PERFORATED PLATING OR WOODWORK

Are all lead sheaths, armouring and conduits effectually bonded and earthed YES

Are all cables passing through decks and watertight bulkheads provided with deck tubes or watertight glands YES

where unarmoured cables pass through beams, etc., are the holes effectively bushed YES

Refrigerated chambers, are the cables and fittings as per Rule DOMESTIC

Have refrigeration fan motors been constructed under survey YES and test certificates supplied YES

Are the motors accessible for maintenance at all times YES

Lloyd's Register Foundation

The Electrical Equipment is installed in accordance with the approved plans and the requirements of the Rules.

All Insulators and Conductors are guaranteed to have been tested at the maker's works as specified in the Rules.

The foregoing

*[Signature]* Electrical Contractors.

Date 25.7.55

COMPASSES.

Have the compasses been tested under working conditions... YES

*[Signature]* Builder's Signature.

Date 25.7.55

Have the foregoing descriptions and schedules been verified and found correct... YES

Is this installation a duplicate of a previous case... YES If so, state name of vessel "/>SANDA"/

Plans. Are approved plans forwarded herewith... NO If not, state date of approval 13.10.53, 29.12.53, 4.5.54, 5.1.25.1.2.2.9.4, 28.5.15.6.9.8.30.8.14.12.54

Certificates. Are certificates of test for motors engaged on essential sea services and generators forwarded herewith... YES

General Remarks. (State quality of workmanship and materials, opinions as to class, etc.) The electrical installation of this vessel has been constructed & installed under Special Survey in accordance with approved plans, rule requirements & Secretary's letter. The quality of workmanship & materials is good. The electrical installation has been examined under full working conditions (including insulation test) with satisfactory results. The electrical installation is in my opinion eligible to be classed as part of the machinery with the notation + MC-605.

Total Capacity of Generators 1250 Kilowatts.

The amount of Fee ... £ 262.200.:

When applied for, 19

Travelling Expenses (if any) £ 4.000.:

When received, 19

*[Signature]* Surveyor to Lloyd's Register of Shipping.

Committee's Minute... FRIDAY 9 SEP 1955

Assigned Sec Rpt. 4.

Im. 154. - Transfer. (MADE AND PRINTED IN ENGLAND) (The Surveyors are requested not to write on or below the space for Committee Minute.)
