Enclosures.

25th August, 1947.

Dear Sir,

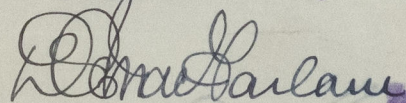

With reference to your classing letter to the Algiers Surveyor dated the 7th March 1947, respecting the steamer "SAINTÉ BERNADETTE", I have to inform you that the vessel is now at this port for completion of Special Survey, Docking and Boiler Survey.

Regarding the test of anchor equipment, the following certificates have been found on board and I should be glad to learn if they are acceptable. I may say that though it is possible to have chains tested at this port, no annealing facilities are available.

It will be noted that the bower anchor mentioned in the certificate is below weight, but before making any recommendations, I will have this and other bower anchors weighed and if necessary tested.

To permit me to return the enclosed certificates to the Owners, would you kindly send them back to this office after perusal.

I am, Dear Sir,  
Yours faithfully.

The Secretary,  
London.
