

16th December, 1949.

My dear Corley,

Many thanks for your note regarding the "WINSTON CHURCHILL".

The Reports' Department quite agree there is a slip-up in the Register Book and the case will be going to the Committee next week for the full notations recommended by the Surveyors, including an amendment for the Register Book of 'working pressure 220 lb.'

With kindest regards and Best Wishes for Christmas and the New Year,

Yours sincerely,

A. G. Corley, Esq.,  
SUNDERLAND.
