Dear Sirs,

Tanker "ZAHRA"

I am in receipt of your letter of the 19th ultimo, the contents of which have been noted.

Your Surveyor's report of survey held in <sup>February/</sup>July last has accordingly been submitted to the Committee, but assignment of the notations s.s. Csb. - 7,53 (Dr.) and \*LMC 7,53 has been withheld pending the receipt of a further report on the renewal of the condenser tubes, which it is observed was to take place when the vessel was drydocked at your port last month.

A notation of BS 7,53 has meanwhile been assigned.

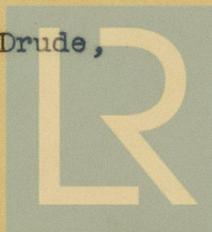

As regards the port bower anchor and 15 fathoms of chain cable which were lost on the 12th October, it is concluded that a report on form Rpt. 8 covering this loss and the above drydocking will be forwarded, in due course, but I shall be glad to receive your confirmation on this point.

It is also assumed that the new anchor and length of chain cable, which have been ordered, will be placed on board at an early date, and that an opportunity will be afforded for your Surveyor to verify the same with the test particulars with a view to preparing the appropriate report on form Rpt.

Yours faithfully,

Assistant Clerk to the  
Classification Committee.
