

LLOYD'S REGISTER OF SHIPPING

27 APR 1945

SAN NICHOLAS

ARUBA, N.W.I.

3rd March 1945

The Principal Surveyor
New York.

Dear Sir:

T.S.S. "SURINAM"

Conversion of Cargo Holds to Cargo Tanks

The Lago Oil & Transport Co., have carried out the above conversion and inform me that it had already been authorized in New York.

As no officially approved plan has been produced so far, I am forwarding particulars of the conversion for your information and approval, if the latter has not already been obtained.

Attached is a copy of a letter sent by the Lago Marine Department to their New York office which explains the reason for the conversion. Also attached are photostat copies of conversion framing plan and ship's capacity plan together with particulars of materials etc.

The workmanship was good and all material used of standard quality.

It is also proposed to make the same conversion on the other two ships of the same class viz., "TAMARE" and "ULE".

Yours very truly,

(Sgd.) Jas. B. Fathers

Surveyor
