for oil fuel 12.20 F.P. above 150°F.

Screwshaft Survey due 6.52.

Boiler Survey due 10.52.

be held.....

In September last the Rio de Janeiro Surveyor was advised by
that all the outstanding surveys would be dealt with on the
return from the North of Brazil.

No information having been received that the surveys had received
a further enquiry was made and in January last the Surveyor stated
was unable to receive any information from the Owners.

The case received the consideration of the Committee on the 27th
last, as a result of which the Rio de Janeiro Surveyor was informed
that the overdue surveys not be dealt with by the middle of the
month (March) the Committee would have no option but to expunge
the ship's Class with a Red Line.

A further letter has now been received from the Surveyor, dated
his recommendations..... continued....

Letter has been received
from the Rio de Janeiro Surveyor.

watch this specially.
