Dear Sirs,

copied

M/S ITALSOLE - M/S ITALVEGA
REQUEST OF CLASSIFICATION DISCONTINUANCE

As you well know, the condition of the freight market is long since very poor and we are obliged to reduce costs as far as possible. Much to our regret, we ask you hereby the discontinuance of the classification with you of two ships of ours: m/s ITALSOLE and m/s ITALVEGA.

We thank you for the cooperation hitherto given by your Surveyors and Technical people - in particular the Genoa Office - during the long years spent together for these two ships and we assure you that we intend to go on availing ourselves of your assistance for the other vessels of ours classed with you as well as for the vessels of our associated "Sicilnaviglio".

We remain, dear Sirs,

yours faithfully

The first thing I noticed when I stepped out of my hotel room
 in London was the air. It was thick and heavy, like a blanket.
 I had heard that London was a beautiful city, but I had never
 experienced it before. The streets were filled with people,
 some walking quickly and others strolling leisurely. The
 buildings were tall and grand, with many windows. I was
 in awe of the city and its people. I had heard that London
 was a beautiful city, but I had never experienced it before.
 The streets were filled with people, some walking quickly and
 others strolling leisurely. The buildings were tall and grand,
 with many windows. I was in awe of the city and its people.
