March 28th, 1949

ANSD.....

"TEMARA" R.B.No. 77094

Dear Sir:

I have had a visit from a representative of the Socony Vacuum Oil Company relative to the above named vessel which appears to have been under survey in drydock at Lagos in January last.

According to information they have received from their representatives, the Society's Surveyor is alleged to be requesting rather extensive repairs, and in view of the fact that the vessel was reclassified and presumably reconditioned in January 1947, the Owners are somewhat concerned at these recommendations. I have suggested that the best procedure would be to await a copy of the Surveyor's report giving the details of his recommendations, and I shall be obliged if you will be good enough to furnish same at your very earliest convenience.

Yours faithfully,

The Secretary,  
LONDON.

Principal Surveyor, U.S.A.
