Dear Sir,

S.S. "OLIMPIA" ex "WRAY CASTLE" ex "PARIA". We beg to make our apologies for returning to this subject; but as the matter is of rather vital importance to us, we should be grateful for your further indulgence.

The circumstances surrounding this vessel are - That she was launched in November 1916; but the engines and boilers were built only in 1920. Consequently also the hull was completed in 1920.

Would you be so kind as to express your opinion on the two points arising therefrom:-

1. Whether the period of about four years intervening between the date of launching and the date of completion is exceptional and due to special circumstances.
2. Whether, according to the Rules of Lloyds Register, and the particular circumstances applying to the building of the "PARIA" she must be classified and considered as a 1920 steamer.

Thanking you in anticipation of your kind

reply hereto,

Yours faithfully,

for Achille Lauro of Naples

A. Lauro
