Enclosure.

17th December, 1936.

Dear Sirs,

S.

I duly received your letter of the 14th instant in further reference to the case of the steamer "OLIMPIA" and note Mr. Lauro's remarks in the matter.

As was explained to your Representative shortly after Mr. Cafeiro's visit to this Office, the application received on the 5th June, 1925 from Messrs. James Chambers & Co., for an amendment of the date of build recorded in the Society's Register Book for this vessel, was not forwarded with my letter of the 26th ultimo owing to the fact that its enclosure was an original document which was not retained in this Office with the correspondence.

Apparently it was handed back, after the contents had been noted, to Messrs. Chambers & Co., and all that is known now, is that it contained the following particulars of the steamer, namely:-

Launched: 27th November, 1916.

Machinery installed: July, 1919.

Delivered: 23rd July, 1920.

which facts were duly noted in a memorandum drawn up at the time in this Office.

S.S. "OLIMPIA".

In compliance with your request, however, I enclose a certified photographic copy of the letter dated 5th June, 1925, from Messrs. James Chambers & Co., referred to above, a copy of the reply to which was forwarded with my letter of the 26th ultimo.

I am, Dear Sirs,

Yours faithfully,

Clerk to the
Classification Committee.
