

S.S. "OLIMPIA".

It is submitted that in reply to his enquiry as to the circumstances in which the Committee agreed to record the date of build as July 1920, the Italian Vice-Consul might be informed in the terms of the third paragraph of the letter, dated 26th ultimo, addressed to Messrs. Galbraith, Pembroke & Co.

In reply to his further enquiry the Vice-Consul might be advised that there is no knowledge in this Office as to the state of construction of the vessel at the time of the launch in November 1916, as she did not come under the Survey of this Society until submitted for classification at Falmouth in April 1921.
