Lloyd's Register Foundation

Reported if possible. Allowance for deck erections under Para. 11 where the sheer drops abaft amidship beam. R.Q.D. is to be taken from the level of the top of the amidship beam. The total standard mean sheer means the sheer measured at the stem and stern girders and forecables. It means the sheer measured at the stem and stern girders and forecables.

The Surveyor should state whether the fall in sheer as reported is measured relatively to the line of keel or to the water line. If measured relatively to water line the vessel's draught is the water line draught.
