The Secretary,
New York.

Dear Sir;

Extracted

I am forwarding under separate cover blue prints of midship sections and profile for the steamer "HANNA NIELSEN" as requested in your letter of January 3, 1917, and I also beg to draw your attention to a clerical error in the First Entry Reports of the "NIELS NIELSEN" and the "HANNA NIELSEN" the thickness of the floors having been stated .52 instead of .40 in thickness as per the midship section, also strong beams fitted in boiler space in lieu of web frames as per my telegram of Dec. 7, 1917, and shall be obliged if you would kindly correct same in the reports.

Yours very truly,

(SGD) W. P. COLLINGS.
