

3rd March, 1920.

A representative from Shipping Investments Ltd., (Messrs. C.H. Pile) called at this office about a week ago and made enquiries regarding the classification certificates for the "STRIVER". He was informed that the Surveyors report had not yet been received, but that the case would receive prompt consideration upon receipt. He added that in the event of the certificates being held up on account of fees they would obtain permission from the builders to pay same and get builders authority for certificates to be handed over to them.

24/3/20

The attached letter dated 20 instant was handed to me to-day by representative of Messrs. Pile & Co.

Owners state they have settled with builders as regards fees.

(Fees not paid per T. dept.)

Lawrence
