v Chief Engineer Surveyor.....

Received from Chief Engineer Surveyor.....

NAME.....BRITANNIA.....REPORT.....MLT.....No. 2445.....

This vessel has a notation "Surveys overdue 7/57" and the Surveyor now reports a part examination made of the machinery with the view to issue an interim certificate for a voyage in ballast from Malta to Naples and the Surveyor states the machinery, as far as seen, found in satisfactory condition for the proposed voyage.

IT IS SUBMITTED that this vessel's machinery is considered eligible for voyage from Malta to Naples in ballast with the class temporarily suspended.
