Lloyd's Register of Shipping.

71, Fenchurch Street, E.C.3.

5th September, 1950.

Dear Sirs,

S.S. "BRITANNIA"

I have to acknowledge the receipt of your letter of the 26th ultimo, and in reply to your request for clarification of the position in regard to the equipment of this vessel, have to inform you that, according to the information in this Office, the equipment numeral of this vessel is in excess of 8100, and that, therefore, the equipment letter is "j", Table 53 of the Rules for Steel Ships, which requires 210 fathoms of 1.4/16" diameter chain cable.

When this ship was classed with this Society, she was supplied with 1.1/8" diameter chain cable, and 255 fathoms of cable of this diameter (which was then accepted) is still required in lieu of the Rule length and diameter of cable quoted above.

Yours faithfully,

Assistant Clerk
to the
Classification Committee.

The Phoenicia Steamship Co. Ltd.,
22, Lascaris Wharf,
VALETTA,
Malta.
