itted for Oil Fuel 2.46 F.P. above 150°F.

ays due Special Survey due 2.50.

Screwshaft Survey due 2.49.

posed to be held.....

marks..... This case has received the consideration of the Committee from time to time, but owing to lack of definite information regarding the carrying out of the above inspections action has been deferred. On the 27th February the case was placed before the Committee when they deferred action for one month, by which time it was hoped that definite information would come to hand that arrangements had been made for the requisite inspections to be held.

In reply to further enquiry the attached letter has been received from the Owners.

Chief Surveyors' recommendations Submitted for the Consideration of the Committee
