QUESTION

ANSWER

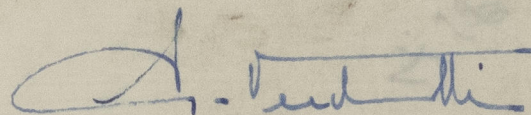

As it would appear from the records in this Office that this ship has not been examined in drydock by the Society's Surveyors since April, 1957, I shall be glad to learn what arrangements are proposed to be made for such an inspection to take place.

I take this opportunity to point out that the Modified Engine Survey became due in April, 1958, and I shall also be glad to learn what arrangements are proposed in regard to this survey.

Date:— 7th July, 1958

This ship has been classed by the RINA. Considering the small size of the ship and being same in service only for short mediterranean trades, the Owners ask for the Society's class to be withdrawn.

Owners letter dated the 5th instant is attached herewith.
