11th November 1919.

To The Secretary,
Lloyd's Register of Shipping,
Fenchurch Street,
LONDON E.C.3.

Dear Sir,

S.S. "WAR BEE".

This vessel was built at the Nova Scotia Steel Co's yard, New Glasgow, Nova Scotia, and completed about June 1918.

The Classification Certificates ~~were~~ not issued and have not since been received by the Managers. As the vessel is being transferred to French Owners, we will be pleased if you could supply duplicate certificates in the event of the original ones having been sent to Canada, so that the Transfer may be completed, as the Classification Certificates are the only papers required to complete the sale.

The Managers have requested Messrs. Branfoot and Fetton of Great St Helens, London to call upon you to get these certificates ~~that~~ ^{that} so they can deliver them to the Ministry and

To The Secretary.

save as much time as possible.

We regret not having been able to give you more notice than this, but the vessel only docked on Saturday, and being found in order was undocked this morning, and the fact that these certificates had not been received was only found out late to-day.

Thanking you in anticipation.

We are,
Yours faithfully,
FOR EYRES & BRYERS,

C. Bryers
