Clause 2(c) of Section 29 of the Rules (1924-25)
states:-

It is submitted that in view of the openings in the bridge end bulkheads being fitted with temporary means of closing, to entitle the space to be exempted from tonnage, the builders be informed that if the owners desire to lead the scuppers direct to the bilges, the closing appliances fitted to the openings at the after end of the bridge must be of a permanent character.
