-----

No surveys are due in the case of this vessel, but a limit to renew the circulating pump expired at the end of last month.

A letter has now been received from the Society's Buenos Aires Surveyors, enclosing one, dated 13th ultimo, received by them from the Owners, from which it is noted that they have no interest in retaining the classification of the vessel with this Society.

The Committee had the case before them on Friday, 18th instant, when they decided to give instructions for the vessel's character to be withdrawn from the Register Book and Three Dots (. . .) inserted in lieu thereof, indicating withdrawal of class at Owners' request.

  
24th June, 1937.
