Lloyd's Register of Shipping.

Port Buenos Aires.

10th. August 1936.

This is to Certify that I have

Surveyed the Boiler and Machinery of the steel screw steamer
"ASTRA III", of Buenos Aires, 3146 tons net register,

and that I have transmitted to the Committee of Lloyd's
Register of Shipping, London, a Report stating that all
recommendations made by me in connection therewith have
been carried out to my satisfaction, and that I have
Recommended that the record of L.M.C. 8-36.

be made in the Register Book in the case of this vessel, when
the daily service fuel oil tanks have been examined, and subject
to the main circulating pump body being again examined or renewed
within nine months time.

A. Daintith.

Engineer Surveyor to Lloyd's Register.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:

"While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its Committees or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
