UNITED WITH THE BRITISH CORPORATION REGISTER

28, Guild Street, Aberdeen

Telephone: No. 20141

12th June, 1956.

Reference

Dear Sir,

Motorship "Bonavista"

We are in receipt of your letter of the 11th inst regarding the domestic boiler fitted in the above mentioned vessel.

This boiler has been made by Messrs Hall, Russell & Co Ld to Messrs A.E. Watts Ld, Montreal, Drawing No. D 42/D, - approved by this Society's Montreal Office on 11th January, 1954.

The working steam pressure is stated to be 15 lbs / sqⁱⁿ, and prior to installation, the boiler was apparently hydrostatically tested to 60 lbs / sqⁱⁿ.

The heating surface of the boiler has been ascertained to be 168 sq ft and in this connection it is regretted that an oversight has occurred in not dealing with this boiler as required in Chapter C paragraph 802 and Chapter C. paragraph 103 of the Rules.

We have to add that a similar boiler has been installed in a sister vessel Yard No. 853, now nearing completion.

Yours faithfully,

THE SURVEYORS.

Per :

R. J. Morris

The Secretary,
GLASGOW.
