

COPY.

27th April, 1956.

Dear Sirs,

" BONAVISTA "

The above vessel is completing Special Survey for class + 100A1 at this port and is expected to sail for St. John's on the 28th inst. arriving about the 6th May.

The windlass cable lifters are considered unsatisfactory and replacements are being made which will be forwarded to St. John's to be fitted on the vessel's arrival.

The Owners have expressed a desire that, when the windlass is proved satisfactory, a report be forwarded to our London office so that the classification certificate when issued will not contain reference to this defect.

Copy of interim certificate enclosed for your information.

Yours faithfully,

THE SURVEYORS.
