POCAHONTAS STEAMSHIP COMPANY

207 Derby Street

Salem, Mass.

May 26, 1958

Mr. Thomas Barrie
Lloyd's Register of Shipping
131 State Street
Boston, Mass.

Dear Mr. Barrie,

Replying to your letter of May 14 regarding Boiler and Shaft survey of the ss "POCAHONTAS FUEL" being due in April of this year; it has been decided to transfer this ship and the s.s. "OAKLEY L. ALEXANDER" to American Bureau classification at the time of their annual inspection in 1958.

This transfer has already been accomplished for the s.s. "POCAHONTAS FUEL".

The idea for transfer was because the new ship is being constructed under the American Bureau of shipping classification and it was thought advisable to have all ships under one classification.

With kindest personal regards.

very truly yours

B.P. Powell Manager
