

"CANADIAN OBSERVER"

Refer Montreal Surveyors' letter dated 8.1.62 enclosing a proposed letter dated 8.1.62 to Messrs. Beauregard, Bisset & Reycraft.

With reference to the above proposed letter IT IS SUBMITTED the Surveyors, provided they concur, might amend the 2nd and 3rd paragraphs as follows:-

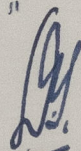

"In reply we have to inform you that from records in this Office this ship went through Special Survey at Montreal 9,53 and subsequently through drydocking surveys at Montreal 8,54, St. John's N.B. 6,55 and Lauzon P.Q. 8,56."

At the Special Survey 9,53 and drydocking survey 6,55 the Surveyors reported all bilges cleaned, examined and coated and all double bottom tanks tested.

At the drydocking survey at Lauzon 8,56 the fore and after holds were examined and all parts surveyed, found or placed in good condition. No specific reference in this case has been made to indicate that this examination included the bilges.

I trust this furnishes the information you desire.

Yours very truly,"

18.1.62.
