26th February, 1934.

Dear Sirs,

S.

I am in receipt of your letter of the 13th instant respecting the trawler "EARL SIGURD", and with regard thereto I would point out that if it is desired to retain the vessel's classification with this Society, it will be necessary for arrangements to be made for the screw shaft to be examined, but as the case must shortly come before the Committee for consideration perhaps you will be so good as to let me know whether it is to be inferred from your letter that you no longer desire to retain the vessel's class in the Society's Register Book.

I am, Dear Sirs,

Yours faithfully,

Clerk to the
Classification Committee.
