

COPY.

2nd April, 1918.

Dear Sirs,

It appears from a report received from the Society's Surveyors at Middlesbrough that the new Steamer "KENILWORTH" has proceeded to your Port where she was to be placed in Dry dock in consequence of having touched another Vessel with the stem extension piece while being moved from the Builders' Yard to the Engineers' Wharf, and I have to request that you will be so good as to forward the usual report on Form 8 if the vessel has been examined while in Dry Dock in your district.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,
NEWCASTLE.
