s Name:

B.C. Classed m.v. "ORCA."

re to my letter of 18th July I now beg to inform you
wners, in reply to my inquiry, have stated that they
ontracted with Messrs. Shipyard "De Waal" at Zaltbommel for
g the vessel in the condition it was before the mine-
lon.

however, are discussing with the shipyard the removal
bridge amidships.

I remember from previous correspondence that the main
on of the Netherlands Shipping Inspection against the
s the very short bridge on a ship with a high ratio

$\frac{L}{D}$

add in their letter that they will eventually submit
this alteration which will comprise the fitting of a
bridge in front of the funnel.

tate they are endeavouring to sell the ship abroad.

I have pleasure to inform you that the outstanding account
classification survey has been paid by Owners to the
a Office.
