Dear

The Annual Survey of the Water Tube Boilers
 became due in September and August last, respectively.

In reply to enquiry the Society's Surveyor at
 Colombo has forwarded a letter from the Owners from which
 it appears that it is not desired to retain the classification
 of these two vessels with the Society.

The Classing Committee had the cases before them
 on Wednesday, 8th instant, when they decided to give
 instructions for the vessels' characters to be withdrawn
 from the Register Book and three dots (...) inserted in lieu,
 in each case, indicating withdrawal of class at Owners'
 request.

 9th April, 1931.
