

12th July, 1948.

Dear Sir,

I am in receipt of your letter of the 8th instant respecting the "OXNA" and regret to find that my classing letter of the 11th ultimo was addressed to Plymouth, and did not contain an enquiry regarding this vessel, only giving your report No. 7866 "As recommended".

Before submitting your report No. 7864 on the "OXNA", however, to the Committee I shall be glad to learn whether you specially examined the Bessemer auxiliary steam pipes on the occasion of your Survey and if so you should state their condition.

Yours faithfully,

D.L.H. Collinson, Esq.

TORQUAY.
