

M/T "DINGLEDALE"

Mr. Neale of Davies & Newman Ltd. has called and introduced Mr. Billaud who represents the prospective French Owners of this tanker.

It is hoped that the ship may be taken over at Devonport tomorrow, and the new Owners desire to tow her as soon as possible to Havre for overhaul.

They request that we authorise our Surveyor to issue an interim certificate and a load line certificate for this voyage.

For the interim certificate it will be necessary for the Surveyor to inspect the vessel afloat and if he is satisfied, to issue a certificate that she is fit to be towed as an unclassified ship to Havre.

For the load line certificate it will be necessary for him to hold a Load Line Renewal Survey and to issue a short term load line certificate as a French vessel.
