

American Bureau of Shipping

45 BROAD STREET, NEW YORK 4, N. Y.

~~(THIS FORM IS TO BE USED IN CONFIRMATION OF CLASS ONLY.)~~

Port No. KE572

Keelung, Taiwan, 12 March 1960

S.S. "MASTRO STELIOS"

IS TO CERTIFY that the undersigned Acting Surveyor to this Bureau did, at the request of Jardine, Matheson & Co., Limited, Lloyd's Agents, Taipei, Taiwan, attend the single screw steel steamship "Mastro Stelios" 7195 gross tons of Piraeus, Greece on the 9th day of March 1960 and subsequent date as the vessel lay afloat at Kaohsiung, Taiwan in order to carry out condition survey of vessel's auxiliary boiler. For further particulars see the report follows:

Auxiliary Boiler Survey

The auxiliary boiler was examined internally and externally together with its mountings, fittings, insulation, refractory and casings and found satisfactory.

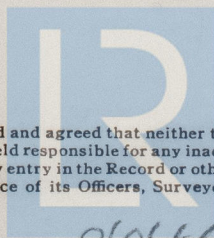

Setting of the safety valve was not verified due to insufficient time to raise steam. It was stated that the safety valve would be tried at a subsequent date.

The aforementioned pressure vessel is considered in a suitable condition for continued reliable operation subject to compliance with paragraph 2.

for Y. I. Chu
Acting Surveyor

This Report is issued subject to the condition that it is understood and agreed that neither the Bureau nor any of its Committees is under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by this Bureau or its Surveyors or in any entry in the Record or other publication of the Bureau or for any error of judgment, default or negligence of its Officers, Surveyors or Agents.
