It is noted in Table one of your report No. 2 hold and Nos. 2,3, and 4 lower and No. 4 upper tween decks are shown as having been examined but these spaces are omitted from the list of items dealt with on page 2 and No. 2 hold is shown as outstanding. Although No. 5 tween deck space is outstanding there is no record of No. 5 hold having been examined.

Please restate the position regarding the examination of all holds and tween decks bearing in mind that the lowest space in any hatchway should be referred to as hold.

Please confirm that the docking can be credited to the Special Survey.

I have to draw your attention to the delay which has occurred in writing your report.
