CARACAS

The Secretary
NEW YORK

May 15th, 1961

Dear Sir,

s.t. "AFURE"

Referring to your telegram, I beg to inform you that I paid a visit to Mr. Edward Bent in Maracaibo and learnt that it is his intention to drydock the above vessel in the course of next month, just for cleaning and painting of the bottom.

It is the Owner's idea to make a complete boiler survey and to check the mainengines.

I understood that no survey will be held as far as the hull is concerned and tailshafts.

The Owner likes to keep the vessel in class, but has a guarantee for a contract with Phillips Petroleum just for four months and cannot spend the money to deal with all required surveys.

Trusting this will meet your requirements, I remain Dear Sir,

Very truly yours,
