

LLOYD'S REGISTER OF SHIPPING,
MONTREAL.

19th February, 1947

Ref. "S"

"C" Type Coasters

M/V "OTTAWA MAYSPRING"

Dear Sir,

I am in receipt of your letter of the 13th instant, respecting the engines installed on the above mentioned Vessel.

The Engines are of the ATLAS DIESEL Type, while those installed on the "MAYOLEN", "MAYMERE" and "MAYSTAR" are the "ENTERPRISE" Diesel Type.

It is concluded that you require torsionograph records for each type of engine, and I have requested the Owners of the former Vessel to supply this information.

With regard to the three latter Vessels, the Owners' Representative has discussed this matter with our New York Office, and has made arrangements for these records to be taken at the first available opportunity, and forwarded to you for examination.

Yours very truly,

(signed) H. Dobson.

Principal Surveyor in Canada

c.c The Principal Surveyor, New York.

The Secretary,
LONDON.
