Dear Sirs,

We thank you for your letter of the 3rd instant and for passing on to us the context of a communication you have received from London reference to our Motorship "WAZIRISTAN".

In so far as the case has been particularly reviewed by the technical committee in London we are looking forward to receiving further information especially with regard to the reason for the fractures in many of the stringer brackets.

Yours faithfully,

for COMMON BROTHERS LIMITED.

Am. Ackerson
Marine Superintendent.
